N/O = NOT OPERATED

(A) Marine Business divested in September 2002

Corporate Spill Definition:

- Any spill to a waterbody which creates a sheen; or
- Any spill affecting land outside of secondary containment which is greater than 1 barrel for upstream business, or five gallons and greater for downstream business.

Spills to impervious surfaces that are not designed or intended to provide volumetric containment are counted as spills.

1 barrel = 42 gallons.
